Hi Ron,

I hope things are going well. This email is to let you know that we will be postponing our response to your request for release of the Bawana Low Grade Ore Pile (S/001/0076) until the low grade ore piles have been incorporated fully into your Hidden Treasure large mine NOI (M/001/0067).

The currently approved NOI identifies the Bawana Low Grade Ore Piles on the map as being part of the large mine bonded disturbance, but the low-grade ore piles do not appear to have been incorporated into the approved 2012 reclamation cost calculation, or into the approved 2012 text. Refer to the comments in the recent Hidden Treasure NOI review.

Let me know if I can be of help, or if I am missing something here. Thanks.

Peter
